The sky is the limit

when it's time to graduate to a new standard in timekeeping.

The Intelligent Time Management System from Primex Wireless. Keeping your campus on schedule is no easy task, but the CommandPoint™ GPS Wireless Clock System can handle it.

As the industry leader in wireless timekeeping solutions, we provide accuracy, dependability, and unlimited expandability. Whether your campus has 50 clocks or 5000, CommandPoint will keep them on time, all the time.

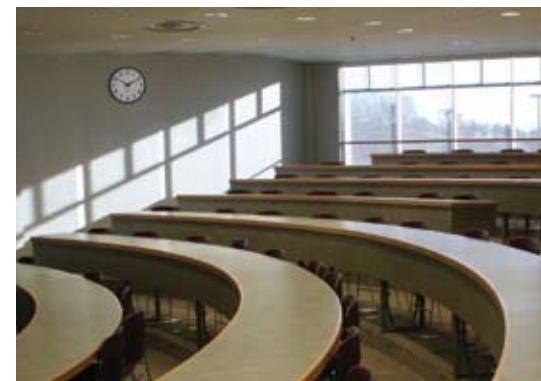

Primex Wireless sets the standard.

- Unparalleled reliability with GPS wireless technology
- Superior technical support and customer service
- Low maintenance five-year battery life and anti-theft clock locks
- The industry's largest selection of clock styles
- Automatically adjusts to Daylight Saving Time

Find out more by visiting us online at www.primexwireless.com/c46, or by calling 1-800-537-0464.

Now available, critical care in **time management.**

it's time to advance to the new standard in timekeeping.

Put Time on Your Side with Primex Wireless. As the leader in GPS wireless timekeeping technology, no one offers a better solution for hospitals and medical facilities. Our Wireless GPS Synchronized Clock System provides continuous synchronization of both analog and digital clocks throughout multiple buildings and wings without interfering with delicate medical equipment.

Our customized facility solutions, local technical support, and the industry's best customer service mean no more clock-related headaches.

Primex Wireless sets the standard.

- Interference-free GPS technology won't disturb sensitive medical equipment
- Accurate and synchronized precision timing eliminates time-based liability issues
- Automatic adjustment for Daylight Saving Time
- Reliable five-year batteries cut maintenance time

With Primex Wireless, the Clock Doctor is in.
